# Vision 2030

Vision 2030 of the Kingdom of Saudi Arabia under the leadership of the Custodian of the Two Holy Mosques, King Salman bin Abdulaziz and his Crown Prince, His Royal Highness Prince Mohammed bin Salman bin Abdulaziz; And for the qualitative leap achieved by the Kingdom of Saudi Arabia in the field of cybersecurity, where the Kingdom earned second place globally out of 193 countries and first place in the Arab world, the Middle East and Asia in 2022 according to the International Cybersecurity Index. In light of the development of cyber security in the Kingdom of Saudi Arabia, we are moving towards building a unique electronic environment characterized by the development of cyber security in facilities and companies to enhance security protection and protect it from intrusion. Cyber Vision is a company established to stand side by side with the Kingdom's vision to provide advice and harness expertise in the field of cyber security to help create a unique and distinctive electronic environment in line with the basics and conditions required by the National Cyber Security Authority to reach cyber ideal and leadership in this field. Early adoption of best practices and improved quality standards helps us stand out in the evolving technology landscape and protect corporate and enterprise information assets from emerging threats. Cyber Vision provides cyber consulting and security strategies, including penetration testing and vulnerability assessment, infrastructure protection, recovery, and recommendation. We will also help you to discover any vulnerability that may lead to an attack that could harm your business. Professionalism and quality of output lie from our team of leaders with significant experience in many broad fields in the electronic areas.

# Vision and Mission

Our vision is to be pioneers in providing professional, ethical and comprehensive cybersecurity services to small, medium, and large companies. Meet organizations' evolving information security needs by providing the best consulting services and offering innovative products. To be recognized as a high-level company in information security throughout the Kingdom.

## Team

The Cyber Vision team has many years of experience in cyber security consulting and services that can deliver high-fidelity services and reduce the risk of intrusion in organizations and businesses. The team's expertise also relies on consulting, assessing security and critical infrastructure risks, and providing essential advice that amounts to a high level of security protection and risk management. Our team consists of minds passionate about innovative ideas and works with integrity to develop reliable and effective results and achieve personal and organizational goals. Our most important goal is to protect our customers in cyberspace.
